

What makes a successful fundraising event?

How do you -

Create an elegant and engaging party that attracts large audiences and ensures major fundraising consistently?

It happens because there is a structure which will ensure its success, provided certain criteria are met.

The structure is provided by GAEvents.

The criteria will be confirmed before GAEvents creates the fundraising party with you and will consist of the following:

- Having a major event or venue that the Charity Party can be attached to.
- Having a dedicated person to chair the event who is passionate about the charity they are supporting and who has the contacts to provide a large and proactive committee to ensure that it will happen.
- Having a benefiting charity that is able to support a major event of this kind. This does not mean a large charity. Some of the best fundraising events are created with small flexible charities who have dedicated supporters.
