Parents were putting the point forward that Cressingham is a beautiful place to bring children up, those that were against it were worried that the children would get bored. Before the discussion it was pointed out that we were only advised of the change of use , and the PC weren't required to vote with their opinion. MJH advised those who wanted to make the points known to add them onto the Breckland website. In between meeting it was announce the change of use has been confirmed.
