

GRAINGER PROGRAMS

1. **Master-classes** for advanced students on selected piano works (to be agreed) which offer a special insight – not only into Grainger’s musical world, but into the art of writing for, and playing the piano.

Grainger was a world virtuoso and was a master of producing beautiful and unusual piano writing – in many of his song accompaniments, as well as in the piano oeuvre.

2. **“Discovering Percy Grainger”**

An illustrated lecture first given at the Australian National University – through recordings which convey the sheer range of Grainger’s output in all genres

3. **Challenging Musical Conventions** – the original thinking of Grainger:

A pre-researched discussion with selected music students, who bring prepared work on the theme.

4. **Grainger’s world of Song** – illustrated lecture.
